

WAECO WAC 2600 Roof-Mounted Air Conditioner

This affordable 2,600 W roof-mounted air conditioner cools your motorhome, caravan or camper van quickly thanks to its efficient dual-direction air distribution system. It also filters out dust particles. Powerful and impressively quiet – so you can enjoy comfortable climate control in your leisure vehicle with friends and family. Easily set the desired temperature and airflow using the remote control.

- Powerful compressor – 2,600 W cooling capacity cools the living area in no time
- Fresh white design – Aerodynamically shaped roof unit in white to match most leisure vehicles
- Quiet operation – Quieter than most other roof-mounted air conditioners on the market
- Optimized airflow – Slim indoor unit with powerful airflow forward and backward
- Adjustable air outlets – Easily direct the airflow with your fingertips
- Energy-efficient – Compressor technology reduces power consumption
- Easy to use – Temperature and fan level set via remote control
- Soft-start function – Smooth and quiet start-up, even on campsites with limited fuse capacity
