

# WAECO WCR 80 Compressor Refrigerator

Excellent price-performance ratio. This compressor refrigerator makes it easy to store your travel provisions in an organized way. Freezer compartment, shelves, door compartments, vegetable drawers and LED lighting – just like your fridge at home. The energy-efficient compressor provides reliable cooling – powerful during the day and quieter at night. Easily set the cooling temperature via the control panel inside the refrigerator.

- Freezer compartment, shelves, bottle holder, door compartments and vegetable drawers – everything you need
- Powerful and energy-efficient compressor with two operating modes (performance/quiet)
- Recessed into the appliance front with integrated LED light strip
- Optimal storage of fruit and vegetables at the right temperature
- Matte black door panel – replaceable and customizable to match the vehicle interior
- Dual-function door lock that also serves as refrigerator ventilation outside the season
- Refrigerant R600a with very low environmental impact

Compressor refrigerator	WAECO WCR 80
